|---|---|---|--|--|--|---|--|
| 1 | Accord Party (AP) | <p>Self- sufficiency in food production using peasant farmers and co-operatives</p> <p>Agro- industrialization</p> <p>Infrastructure for storage, processing and marketing, and</p> <p>Increase foreign exchange earnings.</p> | <p>Plans to build a self-reliant economy that will develop on the strength of the nation's resources and by the effort of the people.</p> <p>The State will play a leading role in facilitating a private sector led economic growth.</p> <p>Diversification of the economy will be promoted.</p> <p>Modernize Tax regimes.</p> | <p>No promise on anti-corruption</p> | <p>To provide a comprehensive health policy for the country.</p> <p>Provision of free health care from birth to 12 years, post primary to tertiary education and from 65 years of age.</p> | <p>Radically generate, transmit and distribute at least 10,000 megawatts of power to the national grid;</p> <p>Complete and accelerate the processes of unbundling of NEPA, by ensuring that necessary incentives and tariffs holidays are given to genuine private investors and;</p> <p>Ensure natural gas to establish private general business that would be sold to the authority dealing with transmission and distribution of power to the consumer.</p> | <p>To support and upgrade the Ministry of Solid Minerals to ensure responsible and controlled exploitation of mineral resources;</p> |
| 2 | All Blending Party (ABP) | <p>Massive and complete re-organization of the agricultural industry;</p> <p>Creation of functional agricultural Extension and food inspectorate divisions;</p> <p>Embark on massive agricultural land preparation in all states for massive crop production;</p> <p>Encourage commercial livestock and fisheries development as well as strengthening forestation and environmental protection schemes;</p> <p>A policy to encourage young people to go into agriculture by funding incentives and mechanization techniques.</p> <p>To replace the ageing generation of farmers;</p> <p>Reclaiming the desert by tree planting programmes</p> <p>Institution of land army scheme across the nation;</p> <p>Restarting farm settlements and procuring appropriate machinery for agricultural productivity.</p> <p>Strengthening the Bank for Agriculture and making sure that loan gets to the deserving farmers;</p> <p>Investing in irrigation facilities for all season agro-enterprise.</p> | <p>To fix the economy with focus on three major aspect, such as poverty eradication, food shortage and provision of housing by intensive and extensive investment.</p> <p>Maintain a sound macro-economic policy environment, run an efficient government and preserve the independence of the Central Bank;</p> <p>Restore and strengthen financial confidence by putting in place more robust monitoring, supervision and regulation of all financial institutions;</p> <p>Make the economy one of the fastest growing emerging economies in the world by achieving a real GDP growth averaging of 10% annually;</p> <p>Embark on vocational training, entrepreneurial and skill acquisitions scheme for graduates along with the creation of small Business Loan Guarantee Scheme to create at least 1 million new jobs every year, for the foreseeable future;</p> <p>Bring the informal economy into the mainstream economy and prioritize the full implementation of the National Identification Scheme to generate the relevant data.</p> | <p>Give full independence to anti-graft and electoral agencies;</p> <p>Set up special courts for corruption cases;</p> <p>Encourage whistle blowing.</p> | <p>Reduce infant mortality rate by 2019 to 3%</p> <p>Reduce maternal mortality by more than 70%</p> <p>Reduce HIV Aids infection by 50%</p> <p>Improve life expectancy by 10 more years</p> <p>Increase the number of physicians from 19 to 50 per 1000</p> <p>Increase per capita national health expenditure to N50,000 from N10,000</p> | <p>Vigorously pursue the expansion of electricity generation and distribution to 50,000 megawatts in four to eight years.</p> <p>Liberalize the monopoly of the Federal Government in power generation and supply, and devolve much of power and energy to the private sector;</p> <p>The gas and thermal stations will particularly be encouraged to increase their supply capacities;</p> <p>Alternative power sources, including hydro, solar, coal and wind energy will be explored and developed;</p> <p>Regular Turn Around Maintenance (TAM) of existing facilities will be done to ensure steady and uninterrupted utility supply;</p> <p>An aggressive and efficient tariff/revenue recovery system will be pursued. All avenues of waste, corruption and abuse will be checked;</p> <p>Rural electrification will continue to be encouraged;</p> <p>Improve management efficiency of the nation's distribution system, improve commitment to consumer service and sensitize a national energy conservation and maintenance culture on electricity supply.</p> | <p>Invest heavily in the abundant solid mineral resources in the country.</p> |
| 3 | Allied Congress Party of Nigeria (ACPN) | <p>Ensure sufficiency in food production</p> <p>Provide raw materials for local agro-allied industries</p> | <p>To resuscitate and transform of the National economy by formulating appropriate policies and creating an enabling environment for sustained</p> | <p>Work tirelessly to eradicate corruption, fraud, embezzlement and the so-called "Nigerian Way" and to enthrone a</p> | <p>Improve budgetary allocation on Health;</p> <p>Improve subventions to hospitals;</p> | <p>Develop and maintain an inventory of energy resources, regular current and projected needs;</p> <p>Guarantee the continuity and adequacy</p> | <p>Establish incentive packages and other infrastructure for investors in this sector.</p> <p>Intensive geological efforts to</p> |

| | | | | | | | |
|---|-----------------------------|---|---|---|--|---|---|
| | | <p>Diversification of export crops production to increase foreign exchange earnings</p> <p>Improve rural and farm infrastructure for storage, processing and marketing of produce; and</p> <p>Increase rural employment and improve agricultural production skills and techniques.</p> <p>Massive supply and use of fertilizers and improved seeds at subsidized rates.</p> <p>Reorganize existing agricultural and rural development special agencies, credit and insurance institutions for greater effectiveness.</p> <p>More capital investment in irrigation and construction of dams for water supply in the arid zones of the country,</p> <p>Expand and rationalize agricultural research institutes</p> <p>Encourage commercial livestock and fisheries development Strengthen afforestation and environmental protection schemes.</p> | <p>economic growth and development;</p> <p>To facilitate greater entrepreneurial development and participation by Nigerians in the economic activities of the country.</p> | <p>new culture of integrity, transparency and accountability.</p> | <p>Review remuneration of medical and health workers;</p> <p>Encourage local government areas to build hospitals and healthcare centres;</p> <p>Encourage private sector participation</p> | <p>of energy supply in the short, medium and long terms, including appropriate conservation policies.</p> <p>Give due and timely consideration to security and environmental protection of the public and the working population from hazards arising from the exploitation, conversion, transportation and utilization of energy.</p> <p>Improve and intensify technological performance capability in the energy sector consistent with self- reliance and the need to attain economic competitiveness.</p> <p>Ensuring optimal use of all energy resources with focus on renewable energy resources in the rural areas The use of nuclear energy for electricity generation</p> | <p>explore for exploitation, all the nation's mineral resources.</p> <p>Strengthen and fund the Nigerian Coal Corporation and the Nigerian Mining Corporation</p> <p>Commercialize and privatize public mining operations</p> <p>Production Sharing Joint-Venture Arrangement with both local and foreign investors shall be vigorously pursued.</p> |
| 4 | Alliance for Democracy (AD) | <p>Improve agriculture and food production as well as Rural Development</p> <p>Massive supply of fertilizers.</p> <p>Create greater awareness in the use of fertilizers and improved seeds at subsidised rates.</p> <p>Increase use of machines in farm operations.</p> <p>Reorganize existing agricultural and rural development special agencies, credit and insurance institutions for greater effectiveness.</p> <p>More capital investments in irrigation and construction of dams for water supply in the arid to encourage all year farming</p> <p>Expansion and rationalisation of agricultural research institutes to make them more results-oriented.</p> <p>Assist small -scale farmers to increase productivity, as well as encouragement</p> | <p>To resuscitate and transform the national economy by formulating appropriate policies and creating an enabling environment for sustained economic growth and development.</p> <p>To facilitate greater entrepreneurial development and participation by Nigerians in the economic activities of the country to enable people assume greater responsibilities for the achievement of their individual and collective development goals.</p> | <p>Work tirelessly to eradicate corruption, fraud, embezzlement and the so-called "Nigerian Way" and to enthrone a new culture of integrity, transparency and accountability.</p> | <p>Improve the budgetary allocation for health care services at federal, state, and local government levels;</p> <p>Improve the amount of subventions to teaching and specialist hospitals to enable them to rehabilitate deteriorating facilities and equipment;</p> <p>Review the remuneration and other incentives for the various grades of medical and health personnel;</p> <p>Encourage state governments to establish general hospitals in the local government areas;</p> <p>Ensure that all local government area provide head centres and clinics to bring health care delivery services neat or to the people especially in the rural communities;</p> <p>Encourage private sector</p> | <p>Develop and maintain an inventory of energy resources, regular current and projected needs;</p> <p>Guarantee the continuity and adequacy of energy supply in the short, medium and long terms, including appropriate conservation policies.</p> <p>Give due and timely consideration to security and environmental protection of the public and the working population from hazards arising from the exploitation, conversion, transportation and utilization of energy.</p> <p>Improve and intensify technological performance capability in the energy sector consistent with self- reliance and the need to attain economic competitiveness.</p> <p>Ensuring optimal use of all energy resources with focus on renewable energy resources in the rural areas The use of nuclear energy for electricity generation</p> | <p>Encourage comprehensive exploitation of minerals resources.</p> <p>Ensure that policy guidelines to regulate the exploitation of various types of solid minerals by both public and private operators are put in place.</p> <p>Establishment of Incentive packages and other infrastructures for investor in the sector.</p> <p>Intensive geological efforts to explore for exploitation, all the nation's mineral resources.</p> <p>The Nigerian Coal Corporation and the Nigerian Mining Corporation shall be strengthened and adequately funded to enable them carry out their statutory functions effectively.</p> <p>Detailed information on the nation's mineral resources to be put together for the use of all interested investors at home and abroad.</p> <p>Commercialization and Privatization</p> |

| | | | | | | | |
|---|-----------------------------------|---|---|--|--|---|---|
| | | <p>of large-scale plantation</p> <p>Encourage commercial livestock and fisheries development as well as strengthening afforestation and environmental protection schemes.</p> | | | <p>participation;</p> <p>control and eradicate infectious diseases;</p> <p>provide and maintain potable water facilities to improve sanitation and reduce the incidence of waterborne, diseases;</p> <p>Encourage the reintroduction of Schools Health Services of the States’</p> <p>Combat the problem of fake drugs in the country by strengthening the National Food and Drugs Administration and Control Agency to improve its operational effectiveness;</p> <p>Encourage local drugs manufacturing; and review the tariff for imported drugs which are not currently produced locally.</p> | | <p>of public mining operations shall be encouraged.</p> <p>Production Sharing Joint-venture Arrangement with both local and foreign investors</p> |
| 5 | African Democratic Congress (ADC) | Promised abundant food production in the policy aims | Development of the Economy to provide good jobs | | <p>Preventive health care;</p> <p>Establish specialist health centres and engage institutions;</p> <p>Promote safe motherhood;</p> <p>Make drugs affordable;</p> <p>Disease control.</p> | Reversal of the power/electricity situation in the country | No statement on mining. |
| 6 | Action Democratic Party (ADP) | <p>Modernize agriculture and transform Nigeria into a medium/commercial scale producer;</p> <p>Disburse micro credit and farm inputs for small scale farmers and create the enabling environment for commercial agriculture.</p> <p>Create a nationwide food inspectorate division for food safety.</p> <p>Inject N30bn to the agricultural sector to create more agro-allied jobs through the Bank of Agriculture and Insurance Schemes;</p> <p>Guarantee a minimum price for selected crops and facilitate storage of agricultural products in the strategic reserves to cover all states.</p> <p>Create storage facilities to take excess farming produce.</p> <p>Form farmers into general and specialized cooperatives.</p> <p>Subsidize farming through farm inputs (fertilizers, improved seedlings, extension workers support services,</p> | <p>Review of the fiscal responsibility act to limit recurrent expenditure to less than the 40% of budget.</p> <p>Create a body of technocrats to manage macro and micro economic policies to create synergy with foreign exchange policy to create employment and economic growth.</p> <p>Maintain on a sustainable basis a sound macro-economic management policy, run an efficient government and preserve the independence of the Central Bank;</p> <p>Restore, reinvigorate and strengthen financial confidence by putting in place a robust monitoring, supervising and regulating framework for CBN / NDIC in respect of all financial institutions;</p> <p>Promote production in all sectors to make our economy one of the fastest growing emerging economies in the world with a</p> | <p>Strict enforcement of anti-corruption laws whilst strengthening the EFCC and ICPC.</p> <p>Create special courts for accelerated hearing of corruption cases</p> | <p>Reduce the infant mortality rate from current 72.7 per 1000 to less than 50 per 1000; maternal mortality by more than 50%, from 814 per 100,000 (2015); reduce HIV/AIDs infection rate by at least 40% within two years in government.</p> <p>Increase the number of physicians from 19 per 1000 population to 25; increase national health expenditure per person per annum to about N25,000</p> <p>Promote alternative medicine and integrate same into the overall health system.</p> <p>Boost the local manufacture of pharmaceuticals and make non-adulterated drugs readily available.</p> <p>Provide free ante-natal care for pregnant women, free health care for babies and children up to school going age and for the aged and free treatment for those afflicted with infectious diseases</p> | <p>Increase electricity supply and access in Nigeria through private sector investment in the power sector;</p> <p>Radically reposition the sector to deliver on the following: Generation at scale: Increase private and public investment in gas supply, power generation and transmission to increase the MW of capacity available on grid;</p> <p>A minimum of 14,000 MW of clean on-grid power (including expansion by existing generation companies and new IPPs) brought to financial close by 2022;</p> <p>Existing Gencos meet or exceed MW expansion commitments in their privatization agreements;</p> <p>Elimination of 3,000 MW of stranded generation due to lack of dependable gas supply and transmission; Privatization of 5,000 MW of NIPPs, including facilitating gas supply where required;</p> <p>Selected distribution companies complete procurements of embedded generation adequate to supply paying customers;</p> | Promote the setting up of mining industries in various State’s based upon their comparative advantage with regard |

| | | | | | | | |
|--|--|--|---|--|---|---|--|
| | | <p>credit, storage activities, chemicals etc.)</p> <p>Ensure equitable distribution of fertilizer and other farm inputs.</p> <p>Promote the use of compost as organic fertilizer from biodegradable solid waste.</p> <p>Establish nurseries for improved seedling production all over the state. Train and deploy farm extension workers.</p> <p>Promote the construction of earth dams for irrigation and water supply.</p> <p>Establish marketing strategy to benefit the real farmers and empower them.</p> | <p>real GDP growth of 5% - 10% annually;</p> <p>Expand the functions of the National Planning Commission to coordinate regional integration and economic development in the six geo-political zones. Integrate the informal economy into the mainstream and prioritize the full implementation of the National Identification Scheme to generate the relevant data;</p> <p>Expand domestic demand and invest in expanded associated public works programs;</p> <p>Embark on export and production diversification including investment in infrastructure; promote manufacturing through agro based industries and expand sub-regional trade through ECOWAS and AU;</p> <p>Balance the economy across regions by the creation of 6 new Regional Economic Development Agencies (REDAs) to act as champions of sub-regional competitiveness;</p> <p>Put in place a N600bn regional growth fund (average of N100bn in each geopolitical region) to be managed by the REDAs, encourage private sector enterprise and support to help replaces current reliant on the public sector;</p> <p>Amend the Constitution and the Land Use Act to create freehold/leasehold interests in land along with matching grants for states to create a nationwide electronic land title registration system on a state by state basis;</p> <p>Create additional middle-class of at least 0.5 million new home owners in the first year in government and 1.0 million annually thereafter; by enacting a national mortgage system that will end at single digit interest rates for purchase of owner occupier houses.</p> <p>Work with the National Assembly to Legislate a Trade Facilitation</p> | | <p>such as tuberculosis and HIV/AIDS;</p> <p>Train and re-train Health workers, adopt cutting edge technology</p> | <p>Gas supply, including gas otherwise flared, is adequate to meet projected demand for gas by 2022 to power projects in Nigeria's generation expansion plan(s)</p> <p>Evacuation capacity of transmission system increased to evacuate 10,000 MW of generation;</p> <p>On-grid and off-grid connections: Facilitate additional business and consumer connections to cleaner power supply, primarily through developing the off-grid solar market;</p> <p>Increased participation of companies serving the off-grid solar market in collaboration with international partners;</p> <p>Private sector investment in a minimum of 65 MW of 2.7 million direct new connections facilitated by 2022;</p> <p>Unlocking energy potential:</p> <p>Improve the enabling environment to resolve bottlenecks to increase access and availability of electricity and private sector investment and participation;</p> <p>Competitive procurement policy and framework for procuring gas and solar generation fully implemented; Gas pricing policy developed and implemented to enable gas to power projects to compete with other markets for gas supply;</p> <p>Plan developed to expand transmission and distribution capacity to support a 15,000 MW grid system;</p> <p>Propose and implement public-private partnerships to complement state budget and concessional financing for transmission to enable wheeling of 15,000 MW of capacity;</p> <p>Improve liquidity in the sector through facilitating distribution loss reduction, increased payment throughout the value chain, settlement of debts, and access to capital for investments;</p> <p>Transition Electricity Market fully implemented, including full payment for power and fuel supply throughout the power value chain;</p> <p>Select Discos can pay approximately 100% for their power supply;</p> | |
|--|--|--|---|--|---|---|--|

| | | | | | | | |
|---|--------------------------------|---|---|---|--|--|---|
| | | | <p>Act that supports seamless movement of Trade across our land borders and the creation of Border Special Economic Zones, Free Trade Areas as well as Free Ports.</p> <p>Strengthen linkage between our Sea Ports, Rail system and our Inland Ports for enhanced Trade Facilitation and reduction of pressure on our Sea Ports</p> <p>Carry out a holistic implementation of Legal Metrology across all sectors of the Nigerian economy to establish standards in commerce and accuracy in measuring and weighing instruments use for domestic and international trade in the Federal Republic of Nigeria.</p> | | | <p>All Discos have either developed a plan (approved by the relevant agencies) for reaching the requirements of their privatization agreements, renegotiated the agreements, or have been consolidated/re-sold by the GON to investors willing and able to make the required improvement.</p> | |
| 7 | Alliance for New Nigeria (ANN) | <p>Self-sufficiency in food production throughout the year;</p> <p>Make agriculture profitable across its value chain.</p> <p>Make agriculture a major source of industrial raw materials and foreign exchange earner;</p> <p>Provide infrastructure for storage of both perishables and non-perishables for all year availability;</p> <p>Rebrand the Agriculture sector with prestige to attract more people to the sector and promote its value chains;</p> <p>The protection of farmers against all hazards.</p> <p>ANN Strategy includes:</p> <p>Operational involvement of all individual, corporate, governmental and non-government stakeholders;</p> <p>Creation of legislation to ease acquisition of land for agricultural purposes;</p> <p>Inauguration of Operational task group on agriculture;</p> <p>Facilitation of integrated ownership</p> | <p>Interestingly there is no policy statement for the economy.</p> | <p>Use the most updated IT tools and applications to fight corruption; not only prevent acts of corruption but also make it difficult for proceeds of corruption to be used or enjoyed by the perpetrators.</p> | <p>Medicare for all citizens;</p> <p>Expanding the net for Medical Aids through NHIS;</p> <p>Strengthen the National Health Insurance Scheme</p> <p>Quality and affordable medical services</p> <p>Free medical services to the aged and the handicapped.</p> <p>Provide all needed support to the healthcare professionals to stimulate quality medicare delivery</p> | <p>ANN shall work to deliver more than enough energy through alternative energy sources such as coal, solar, hydro, wind and biomass for domestic and industrial use, wherever these prove viable.</p> <p>As a matter of pressing priority and urgency, tackle the paralyzing lapses with electric power generation, distribution and supply;</p> <p>Liberalize the monopoly of the Federal Government in power generation and supply. devolve much of power and energy to the private sector;</p> <p>The gas and thermal stations will be encouraged to increase their supply capacities;</p> <p>Alternative power sources, including hydro, solar, coal and wind energy will be explored and developed;</p> <p>Regular TAM of existing facilities will be done to ensure steady and uninterrupted utility supply;</p> <p>An aggressive and efficient tariff/revenue recovery system. All avenues of waste, corruption and abuse will be checked;</p> <p>Rural electrification will be sustained.</p> | <p>Complete the medium steel section of Ajaokuta, which can produce two-kilometer rail track steel per day.</p> |

| | | | | | | | |
